SAFETY INFORMATION	
1. Identification of Hazards	Latches do not pose a threat to health and safety, provided they are used according to their intended purpose and correctly installed and used. However, caution should be exercised, as they may have sharp edges or moving parts that could pose a risk of pinching.
2. Hazardous Substances	Latches do not contain hazardous substances as defined by Regulation (EC) No 1907/2006 of the European Parliament and Council of 18 December 2006, Articles 31 and 33 (REACH).
3. Waste	Waste generated from the use of latches (packaging, damaged, or worn-out latches) does not pose a risk to the user, provided it is disposed of in accordance with applicable legal regulations.
4. Personal Protective Equipment	During the installation or removal of latches, personal protective equipment, such as protective gloves, should be used in accordance with occupational health and safety regulations.
5. Recycling	Latches can be recycled after removal. This material does not pose a threat to the environment, provided it is handled correctly and in compliance with applicable regulations.
