SAFETY INFORMATION	
1. Identification of Hazards	Padlocks do not pose a threat to health and safety, provided they are used according to their intended purpose and installed and used correctly. However, caution should be exercised as they may have sharp edges or moving parts that could pose a risk of pinching.
2. Hazardous Substances	Padlocks do not contain hazardous substances as defined by Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006, Articles 31 and 33 (REACH).
3. Waste	Waste generated from the use of padlocks (packaging, damaged or worn-out padlocks) does not pose a risk to the user, provided it is disposed of in compliance with applicable legal regulations.
4. Personal Protective Equipment	When assembling or disassembling padlocks, personal protective equipment, such as protective gloves, should be used in accordance with occupational health and safety regulations.
5. Recycling	Padlocks can be recycled after disassembly. The material does not pose a threat to the environment, provided it is handled properly in compliance with applicable regulations.
