SAFETY INFORMATION	
1. Identification of Hazards	Gate latches do not pose a risk to health and safety when used as intended and properly installed and maintained. However, caution should be exercised as they may have sharp edges or moving parts that could cause a pinching hazard.
2. Hazardous Substances	Gate latches do not contain hazardous substances as defined by Regulation (EC) No 1907/2006 of the European Parliament and of the Council of December 18, 2006, Articles 31 and 33 (REACH).
3. Waste	Waste generated from the use of gate latches (packaging, damaged, or worn-out latches) does not pose a risk to the user, provided it is disposed of in accordance with applicable legal regulations.
4. Personal Protective Equipment	During installation or disassembly of gate latches, personal protective equipment such as protective gloves must be used in compliance with occupational safety regulations.
5. Recycling	Gate latches can be recycled after disassembly. This material does not pose a risk to the environment, provided proper handling procedures are followed in accordance with applicable regulations.
